The figures included in this report are preliminary figures for general situational awareness and trend purposes only. They do not represent the official figures of the Clayton County Police Department and are subject to further analysis and revision. Due to the statute-driven, changing nature of crime classification and area boundaries over time, be advised that the figures contained may not fully coincide with CCPD statistical sources. Differences are reflective of the departmental procedures or policies that were in place at the time the vents occurred and the date the data was compiled. In addition, data may be approximate in relation to indicated areas. Additionally, they are not Uniform Crime Reporting (UCR) or "crime rate" numbers and are not intended to be used as such. Rather, they are a breakdown of every offense within every case that occurred during the given time periods. Although every reasonable effort is made to verify their accuracy, the accuracy of any data is subject to the constraints of the report generation process as well as the manner, format, and point in time of any query.

Figures 2020 and beyond are number of victims/offenses and not number of incidents.
