2025 Strategic Plan

As we conclude this year, I want to take this opportunity to keep our community informed about public safety matters, highlight our achievements and challenges in 2025, and share our department's goals for 2026.

Our overall crime rate has decreased by 17.75% compared to 2024. While violent crime saw a slight decline of 0.44%, many of these incidents, including aggravated assaults, stemmed from personal conflicts between individuals who knew each other, often escalating to gunfire. In fact, 66% of homicides this year involved individuals connected through domestic relationships, friendships, or acquaintances. As a community, we must work together to promote conflict resolution without resorting to firearms or other weapons.

This year, we seized 989 firearms, and we continue to see injuries caused by mishandling weapons. We urge all gun owners to secure their firearms in a locked box or safe when not carried on their person. Several documented incidents involved weapons stolen from vehicles—typically unsecured—later used in criminal activity. Preventing these thefts is critical to reducing future crimes.

On a positive note, vehicle fatalities decreased by 29% compared to 2024. Pedestrian fatalities have gone down as well, thanks to increased enforcement and community awareness. To further reduce traffic-related deaths, we encourage pedestrians to use crosswalks, obey traffic signals, wear light-colored or reflective clothing, and make themselves visible—such as using a cell phone flashlight. Drivers should avoid distractions and remain vigilant at all times.

To continue our progress, we are actively seeking qualified men and women to fill vacant police officer positions. These efforts are part of our broader strategic plan, which can be viewed in full on our department website at [claytonpolice.com](http://claytonpolice.com). Navigate to the Office of the Chief of Police tab and select Strategic Plan.

In closing, I encourage you to stay connected with our department through our website and social media platforms. Together, we can make our community safer and stronger.

### CRIME DATA

2022-2025

The figures included in this report are preliminary figures for general situational awareness and trend purposes only. They do not represent the official figures of the Clayton County Police Department. And are subject to further analysis and revision. Due to the statute-driven changing nature of crime classification and area boundaries over time, be advised that the figures contained may not fully coincide with CCPD statistical sources. Differences are reflective of the departmental procedures or policies that were in place at the time the events occurred and the data was compiled. Data may be approximate in relation to indicated areas. Every reasonable effort has been made to verify the accuracy of the data, however, accuracy is subject to the constraints of the report generation process and the manner, format, and point in time of any query.
